

Savoir Faire Language Institute

WHY CHOOSE US THIS SUMMER?

SPANISH • FRENCH • ITALIAN

Small Groups

= Acceleration

Our small groups provide you the personal attention you need and many opportunities to practice speaking which accelerates you towards fluency. 10 or less in regular group classes.

Outstanding Teachers

= Extraordinary Experience

The teacher makes all the difference and you know it! Our exceptional instructors are hired for their experience, background, education and personalities to ensure your class is effective and interesting.

Native Speakers

= Accuracy

Native or near native-level proficiency is a requirement at Savoir Faire. Our students acquire an authentic accent and learn important cultural behaviors. "How many times do I kiss hello and when???"

Immersion Approach

= Efficiency

Why would you need to accustom yourself to understanding a foreign language if your teacher translates everything for you? You don't and you won't! We don't aim to waste your time! Savoir Faire uses the immersion approach because it is the most efficient means to meet your goal to successfully communicate outside the classroom. And more, our teachers are skilled at being sure you follow everything they say.

Friendly Atmosphere

= Progress

Learning theory and common sense tells us that people learn better when they are relaxed, comfortable and successful. Our classes cultivate laughter and so improve your progress through our choice of teachers, the activities, and the methods we employ, not to mention the interesting people whom you get to know as classmates. There are no written exams or stressful evaluations. Useful progress benchmarks help you to assess your growth.

Most of our adult students say they enjoy being in class A LOT

Conversation and Communication

= Fluency

Most of our students' primary goal is to speak a foreign language - to their employees, on vacation, or just for personal fulfillment. Our classes are structured so most writing and reading is done outside class to provide you every opportunity to practice and listen while you have a native speaker, your teacher, captive in the classroom! Activities in class are designed for ultimate conversational practice time.
